

Application No.: 10/633,726
Filing Date: August 4, 2003

SUMMARY OF INTERVIEW

The Applicants wish to thank the Examiner for the helpful telephonic interview conducted on November 15, 2007. Present were Examiners Fernandez and Winakur and Applicants' attorney Ryan Melnick. Applicants' attorney discussed Claims 10-17 and U.S. Patent Nos. 6,425,867; 5,601,526; and 5,643,179. Applicants' attorney reminded the Examiners that a 37 C.F.R. § 1.131 declaration had been filed to swear behind the non-provisional filing date of U.S. Patent No. 6,425,867. The Examiners agreed that in view of the § 131 declaration and other distinctions from the cited art that the claims were free of the art, pending additional searching. Examiner Winakur suggested several helpful amendments to clarify the claim language.
